#### Prerequisites for (curricular) exams

- ❖ [There aren't prerequisites for taking exams.](#)
- ❖ Attendance of the lessons is not compulsory, but highly recommended.

#### Other recommendations/indications:

- ❖ [Students' services](#) → The Senior Tutor's Office supports and co-ordinates the Tutorial Service of the Department;
- ❖ [Exams: Guidelines](#);
- ❖ **Learning objectives:** The Master's degree course in Finance and Markets aims to offer an in-depth and comprehensive education in finance, in the traditional areas, but also in the more current ones (impact finance, sustainable finance, behavioural finance) guaranteeing the ability to adapt to a constantly changing environment.  
There are two curricula, both of which provide specialised training in finance (banking and asset management) and production (financial management of enterprises), the first with a bend towards digital technologies and their applications, the second, which includes teaching in English, allows for in-depth study of international issues that can enhance the operation of companies across borders;
- ❖ **Career opportunities:**  
Participants may pursue a career in: financial and business administration in the international context; country management; banks, insurance companies, brokerage and the saving market; consulting; public administration.
